BOM - FireAlarm Detection and Alert System (Estimate)

No	Item	Use	Qty	Unit Price (EUR)	Line Total (EUR)
1	ESP32-S3 DevKitC-1 (N8R8)	Main WiFi MCU board (audio processing and IoT)	1	12.96	12.96
2	SPH0645 I2S Mic Eval Board	Digital microphone input for alarm detection	2	6	12
3	ESP32-S3 Expansion Board (44-pin)	Breakout/expansion for easier breadboarding	1	4.07	4.07
4	LiPo Battery 3.7V 2500mAh	Battery power source	1	13.75	13.75
5	Micro-Lipo Charger USB-C	Charge LiPo via USB-C	2	5.47	10.95
6	PowerBoost 1000C	5V boost supply and charger (if needed)	1	18.35	18.35
7	USB-C Cable (data/charge switch)	Programming and charging cable	1	4.55	4.55
8	Large Solderless Breadboard	Breadboard testing (Milestone 1)	1	18.35	18.35
9	Jumper Wires M/M (40pcs)	Breadboard wiring	1	3.63	3.63
10	Arduino Nano 33 BLE Sense (no headers)	Alternate dev board for experiments	1	33.43	33.43
11	Multimeter	Electrical measurement and debugging	1	28	28
12	Cordless Precision Screwdriver	Assembly tool	1	15.87	15.87

Summary

Parts Subtotal (EUR)	175.91
Shipping (EUR)	30
Subtotal Before VAT (EUR)	205.91
VAT 25% (EUR)	51.48
Grand Total (EUR)	257.39

Notes

Pricing is an estimate. Final prices and quantities may change at ordering time; any difference will be adjusted in the project amount.

USD-priced items were converted using an assumed exchange rate for estimation; actual billed EUR may differ.
